

AIR CAP POOL LEAGUE NEWS

MORE RULE CLARIFICATIONS

We still have been getting calls on a regular basis asking for a rule clarification for a number of situations. Everything that I have seen lately can be found in the new rule book included in your packet. Please remember, ALL divisions, other than Tuesday Open VNEA, will be using the modified BCAPL rules. Here are a few examples of the most commonly asked questions...

- **Cueball scratch on the break**...Ball in hand anywhere (except Tuesday Open)
- **What is an ERO?**...When a player makes his FIRST approach to the table, with ALL 15 object balls plus the cueball in RANDOM position (not a scratch on the break), and runs all of his object balls plus legally pocketing the 8 ball & wins the game during that one approach.
- **Ball knocked off the table**...8ball off the table is a loss; any other ball is considered a ball in hand foul to the opposing player. Balls knocked off the table are not spotted (except in Tuesday Open VNEA).
- **Ball accidentally touched or moved during shot**...If only one ball is touched or moved, the opposing player may relocate the ball to its original position. If two or more balls are touched or moved accidentally, it is a foul, ball in hand to the opponent. However, the moved balls may NOT be relocated. (Tues Open see different rule)
- **Ball accidentally moved while placing ball in hand**...While placing a ball in hand it is a foul to touch ANY other ball on the table with the cueball or your hand. This also applies to any COACH who is placing the ball for his player during a time out.
- **Can a coach, during a time out, place a piece of chalk on the rail to make an aiming point for the player?**...YES, however, neither the coach nor any other player can MARK the table in any way. Also, if the coach places the cueball for the player, the player does NOT have to re-touch the cueball before proceeding with his shot.
