

# AIR CAP POOL LEAGUE NEWS

## AVERAGES CLARIFICATION

Players that have played 3 matches will have an established average for that night and division. (Remember your average can change from night to night.) Each week the Fall Session player averages are attached to this newsletter and are to be used each week, it will be revised weekly based on your play. **If a player has a blank or a '2' or a '3', then they are still establishing their average.** You continue to use the calculations in the center of the book to determine their average after they have played all 4 games. You use the established players handicap in the book **ONLY** for players who have **NOT** yet played three matches for the same team in the same division.

## TEAM DRINKS

**all players please read this!**

It is essential that all players understand that the AIR-CAP POOL LEAGUE does not condone illegal activities anywhere, any time in any way. **The old practice of team drinks for league players is NOT LEGAL.** Club owners can be, and have been, fined and could possibly have their establishment shut down for giving away alcohol in any form. Club owners and employees are not allowed to give drinks, buy drinks, or extend tabs past the end of the business day. As the league operator it is my obligation to inform club owners that our league will not endorse the practice of giving away team drinks. Club Owners decide how they run their business. A league operator cannot tell a Club Owner what to do regarding their policies. Our league has nothing to do with any club's policies regarding team drinks. With this in mind **players or team should always be respectful to clubs regarding their business practice.** If there is disrespect or bad behavior, it will be viewed as unsportsmanlike conduct and dealt with as such by league management.
